## NATIONS' LEADERS IN CONFERENCE DEBATE PROBLEMS

Representatives of Allies Meet  
in London

Reparations and Germany's  
Condition Discussed

London, Aug. 7.—Representatives of the Allies to-day gathered around the conference table here once more to discuss war reparations, Germany's financial condition and related questions.

The meeting, the thirteenth within less than three years, was greeted by newspapers without enthusiasm, and in some cases with almost despairing skepticism.

Prior to the meeting, M. Poincare and his Finance Minister, M. De Lasteyrie, conferred with Premier Theunis of Belgium, and they were reported to have reached a common understanding as to the necessary measures respecting Germany.

All the Allied delegates, including Baron Hayashi, representing Japan, arrived in Downing Street shortly before 11 o'clock and went immediately to the conference chamber.

### Large "Gallery."

To-day is a bank holiday in England and hundreds of excursionists gathered in Downing Street. The crowd included American tourists, and the conference had the largest "gallery" of any post-war meeting that has been held in London.

By a ruse the several score newspapermen who were awaiting the arrival of the statesmen were taken to the room of the Prime Minister's secretary while unknown to them the entire personnel of the foreign delegations entered the conference room. The incident caused much resentment among the correspondents.

LAY FOUNDATION  
FOR CHIEF WORK

London, Aug. 7.—Laying of the foundation for the important work facing the Allied Governments in connection with German reparations and kindred problems was begun at a preliminary meeting of the principal representatives of those Governments to-day.

No agenda for the conference, in which Premier Lloyd George and Premier Poincare of France were the principal participants, had been prepared in advance, and one of the first concerns of the initial meetings presided by Mr. Lloyd George was to decide the order in which the various subjects should be brought forward.

### Public Excluded.

The conference began its session shortly before 10 o'clock, adjourning at 1.05 p. m. with announcement that the conference would reconvene at 4.30 p. m. No one aside from the delegates was admitted to the session.

A statement from Sir Edward Grigg, the British Premier's private secretary, as to the course the proceedings had taken was at first promised for the early afternoon, but later it was stated the announcement would not be forthcoming until evening.

### British Views.

After the conference opened this morning, Mr. Lloyd George spoke at some length, explaining the British Government's view that the Allies should allow a moratorium on Germany's reparation payments.

Mr. Poincare then began to explain the French views on this question and had not completed his address when the luncheon recess was taken. He continued his exposition when the conference reconvened at 4.30 o'clock.

DEBTS OF ALLIES  
SUBJECT OF DEBATE

London, Aug. 7.—The immediate concern of the Allied conference, which is to be opened here to-day is the question of reparation and Germany's request for a moratorium; but since the delivery last week of the note of the Earl of Balfour, it is assured that the question of interest will be a subject of debate.

## EFFORT TO END COAL STRIKE IN U.S. WEDNESDAY

Operators and Employees to  
Meet in Cleveland

Larger Attendance Expected  
Two Days Hence

Cleveland, Ohio, Aug. 7.—Coal operators and union leaders who gathered here to-day for a wage conference looking toward ending of the soft coal strike agreed in advance of their first joint meeting to adjourn until Wednesday with the expectation that Illinois and Indiana operators would be in attendance at that time.

Operators and union leaders had virtually agreed on a wage concession before to-day for a wage conference looking toward ending of the soft coal strike agreed in advance of their first joint meeting to adjourn until Wednesday with the expectation that Illinois and Indiana operators would be in attendance at that time.

## DIVER IS OUT OF IMMEDIATE DANGER TO-DAY

Condition of Billy Muir, Injured  
in Swimming Gala, Con-  
sidered Satisfactory

The condition of Billy Muir, who was injured while high diving at the Pacific Northwest Swimming Gala at the Gorge Saturday, was reported from St. Joseph's Hospital to-day to be as satisfactory as could be expected. Muir spent a more comfortable night, and to-day his physician, Dr. F. M. Bryant, announced that he was out of immediate danger. A second X-ray examination of the boy's back was made to-day, and this will determine the nature of his further treatment, Dr. Bryant said.

A sad accident to Billy Muir, who recently won the B.C. diving championship, marred the Pacific Northwest gala at the Gorge Saturday. Muir is at present lying in a serious condition at St. Joseph's Hospital with a broken back.

The accident occurred in the evening after he had made what appeared to be a perfect dive from the 12-foot tower, a dive which he had made in the afternoon and has frequently made before. There was only one more item on the programme when the dives by Muir and his teammate "Buck" Calder were announced.

Muir is unable to state exactly what happened, and it is conjectured that after striking the water he turned his hands upwards too sharply.

SUN YAT SEN  
IS SAID TO HAVE  
BRAIN TROUBLE

London, Aug. 7.—Dr. Sun Yat Sen, former head of the Southern Chinese Government, is suffering from a mental trouble which has already required the attendance of two foreign brain specialists, says a Hongkong dispatch to The Daily Telegraph.

FIRE TO-DAY IN  
PORTLAND, ORE.

Portland, Aug. 7.—Fire believed to have been of incendiary origin here to-day destroyed the Hawthorne Stables and three houses and badly damaged a garage. The combined loss was estimated at approximately \$50,000.

NORTHCLIFFE'S

AIRMAN LANDS  
AT AGRA, INDIA

Agra, British India, Aug. 7.—Major W. T. Blake, the British aviator, who is attempting a round-the-world flight, was forced to land here yesterday, en route to Allahabad, owing to rain and engine trouble. Due to the repeated interruption caused by motor mishaps, he is trying to obtain a new machine for his flight to Calcutta.

## Tribute Paid to Memory of Soldier-Journalists

Newspapermen From All Over Province At Unveiling  
of Memorial Tablet In Parliament Buildings  
Yesterday.

"To the sacred memory of those of our number who are out on their last great assignment," with these words, pregnant with meaning to members of the journalistic profession, His Honor the Lieutenant-Governor, himself a member of the craft, yesterday afternoon unveiled the provincial memorial erected by the B. C. Institute of Journalists to newspaper men of British Columbia who gave their lives in the great war.

The memorial, which takes the form of a handsome bronze tablet to the fallen, with an illuminated scroll containing the names of those who served in situ-

Harding Asks  
RAILWAY MEN TO  
RETURN TO WORK

Suggests Railroad Labor  
Board Make Ruling

No Wage Cuts in Canada Till  
Arbitration

Washington, Aug. 7.—President Harding to-day called upon striking railroad shopmen to return to work, requested the railroads to assign them to work, and asked both the workmen and carriers to submit the disputed question of seniority to the Railroad Labor Board.

The President sent telegrams to R. M. Jewell, head of the Railroad Shopmen's Union, and T. De Witt Cuyler, chairman of the Association of Railway Executives, outlining the plan which he hoped would result in a speedy termination of the strike. Mr. Harding, in his message, stated that both parties to the dispute agreed to comply with the decision rendered on seniority by the Railroad Labor Board.

NO WAGE CUTS  
IN CANADA TILL  
BOARD REPORTS

Ottawa, Aug. 7.—(Canadian Press).—Substantial confirmation by the Department of Justice of the view which obtained generally among the railway employees of the shopmen's organization to the effect that conditions as to wages and hours, upon which the employing railways and men disagree, must remain unchanged until the dispute involved has been dealt with by a board of conciliation is conveyed in a telegram sent by Premier King to Charles Dickey, secretary of Division No. 4, Montreal. This opinion has been communicated by the Government to the various railway companies.

The case is governed, it is stated, by Section 57 of the Industrial Disputes Investigation Act.

Premier King's telegram reads: "On behalf of the Government, the Minister of Railways and Canals obtained from the Department of Justice legal opinion respecting the question raised in your telegram to me, of August 1, and on August 3 communicated the same to the several railway companies. I understand that the companies are in agreement to comply with the decision of the board of conciliation."

FASCISTI OCCUPY  
GENOA PALACE

Five Killed in Fight With  
Communists

Martial Law in Several Parts  
of Italy

Genoa, Aug. 7.—The famous San Giorgio Palace, the symbol of Genoa's ancient glory and the meeting place of the Genoa Conference, was occupied by Fascisti after a short but bloody fight last night in which five were killed.

Rome, Aug. 7.—Martial law has been declared in the provinces of Genoa, Milan, Parma, Ancona and Leghorn. In Rome, troops armed with machine guns rushed to the Chamber of Deputies in order to protect it against possible attacks by Fascisti.

## RACING ADHERENTS ARE CONSIDERING COUNTER MOVE

Action by Way of Mandamus  
Is Said to Be Probable

Oak Bay Ready to Defend  
Prohibitory By-law

That the adherents of horse racing have not fired their last shot in defence of their positions, but are reloading their guns for another assault on the position of the Oak Bay Council was learned by The Times to-day.

The second counter move, it is stated on good authority, will be by way of application for a writ of mandamus in the courts. At present the defence forces are gathering their supporters and making sure of the field of fire ahead before giving open battle, but such legal action is anticipated, probably in close proximity to the opening date of the Fall Fair.

Questioned about the matter this morning, George Sangster, secretary of the B. C. Agricultural Society, stated that a Fall Fair without racing would be very much handicapped in opening. Mr. Sangster denied that the B. C. Agricultural Society was planning any court action at present, and stated that the last step taken in this direction was when he and H. M. Fullerton pleaded with the Oak Bay Council on Monday.

On that occasion the Council stood firm, and confirmed the stand its members advanced in passing the ban by-law. Messrs. Sangster and Fullerton met here last week, it is understood, when Mr. Fullerton was in this city from New Westminster.

Interviewed by The Times this morning, S. J. Draks, reeve of Oak Bay, stated that the last he heard of the racing situation, except for numerous interviews with individual supporters of horse racing, was on Monday. "I have not heard of any mandamus proceedings yet," stated the reeve, "but I have no doubt they will leave no stone unturned to have the racing."

GOVIN MENTIONED  
AS AMBASSADOR

Not Expected to Succeed  
Geddes, However

Ottawa, Aug. 7.—(Canadian Press).—Sir Lomer Gouin is at his summer home at Murray Bay and consequently no statement is available from him in regard to a report from Quebec that he will succeed Sir Auckland Geddes as British Ambassador to the United States. The report is, however, regarded here as doubtful. It is thought that Sir Lomer would not desire to dissociate himself from his Canadian interests, business and political, to such a degree as would be regarded as necessary if he were to take charge of British interests at the American capital.

## Railroad Disaster In Missouri Is Investigated

Sulphur Springs, Mo., Aug. 7.—Eye-witnesses were summoned to-day before a coroner's jury at Desoto, Mo., to recount details of the rear-end collision of two Missouri Pacific trains here Saturday, when 37 are known to have been killed and 138 injured.

Coroner Elders promised a thorough investigation of circumstances which caused the disaster, the worst train wreck in the history of this part of the country. While Matt Glenn, dead engineer of the fast train which ploughed through four coaches of the local train near the station, was blamed for the accident, according to the version of John Cannon, assistant general manager of the road, relatives of the dead and injured joined in demanding a thorough investigation.

The disaster occurred when train No. 4, a fast passenger vestibuled steel train, running at full speed, crashed into No. 22, a local composed of five wooden day coaches, a baggage and an express car, as the engine was taking on water with the coaches stretching back on a trestle over Glaise Creek. The impact hurled two of the local coaches down a fifty-foot embankment edging the Mississippi and telescoped four other coaches, crushing a number of passengers to death in their seats.

Both trains were behind time, the fast passenger, running from Fort Worth, Texas, to St. Louis, Mo., carrying 150 passengers and the local 100 persons.

## DECLARES IRISH INSURGENTS MUST GIVE UP ARMS

Michael Collins Says There  
Will Be No Compromise

Insurgents Groups' Attempt  
Against Dublin Failed

Dublin, Aug. 7.—The reply of Michael Collins, as head of the Provisional Government, to representations by the Cork Association urging the need of a compromise between the republicans and the Government, given out by the Provisional Government, declares that "hostilities will cease only when the irregulars give up their arms and a cessation of raids by the irregulars is ordered."

It is officially announced that Irish Free State troops have occupied Galbally, Limerick Junction, Killybegny and Kilmagow. They also occupied Listowel Saturday. The troops everywhere were greeted with remarkable enthusiasm, according to the statement.

Insurgents Lost.

The rattle of machine guns, rifle firing and the explosion of bombs were heard in various parts of the city from midnight Saturday until dawn Sunday while republicans were unsuccessfully attacking the positions of the national troops. The republicans suffered losses, but the victims were removed before ambulances arrived. The national troops took thirty prisoners.

Trade Union Report.

Both the Government and the republicans are scored for present conditions in Ireland in the annual report of the Irish Trade Union Congress.

The report declares the policy of the Government in many respects is dangerous to democracy and freedom and condemns the Government for allowing the irregulars to commit illegalities.

On the other hand, it says: "The political claims of the republicans are irrational; their methods are illegal."

## Death List of Great Swatow Typhoon Is Now Put at 10,000

Scene of Desolation at Chinese Port; Hundreds of  
Bodies Mingled With Debris; Destruction Almost  
Complete, with Exception of Post Office.

Hongkong, Aug. 7.—Casualties in the typhoon and tidal wave which last Wednesday swept the port of Swatow, 250 miles north-east of here, now are estimated at 10,000.

Desolation hovers over the ruined city and terror haunts its streets. As detailed reports reach Hongkong, the full extent of the disaster is being revealed.

In the native city hundreds of corpses and the carcasses of animals are mingled with the debris. Human remains protrude from the unclean wreckage. It is estimated that more than 75 per cent. of the city's buildings were destroyed, including the silk knitting factories and the old German consulate.

ARCHDEACON CODY,  
TORONTO, PREACHED  
BEFORE THE KING

London, Aug. 7.—(Canadian Press Cable)—King George, Queen Mary, Prince Henry and Prince George were present at the service in the private chapel of Buckingham Palace yesterday morning when Rev. Dr. Cody of St. Paul's Anglican Church, Toronto, preached.

Should-like, some Chinese attempted to loot the wreckage, but the native police stopped them promptly. A Swatow Chinese newspaper, however, reports that lawless elements raided the house of typhoon victims and held up passers-by for plunder.

The police frustrated an attempt to loot the office of the Banque Industrielle Chinoise, arresting two men.

Fire in Hotel.

At midnight Wednesday, fire broke out in a Chinese hotel, gutting it and adding to the terrifying experiences of the inhabitants.

The destruction was almost complete, with the exception of the Chinese post office, a new three-story building.

Ruins.

To all appearances Swatow presents the scene of a war-ravaged town, one heap of ruins.

The tidal wave which swept the Bund, or road along the border, at the height of the typhoon, inflicted considerable damage to the waterfront buildings. Losses were heavy in this district.

Aid Sent.

The British in Hongkong have remitted \$10,000 to the British consul at Swatow and are shipping rice for distribution among the homeless and destitute. The Swatow municipality charitable association is raising subscriptions for a relief fund.

Narrow Escapes.

Three Catholic sisters in charge of the Ursuline Convent at Swatow, one of them British, the others French-Canadian, had narrow escapes from the tidal wave that followed the typhoon.

War Craft Sent.

Hongkong, Aug. 7.—The British gunboat Magnolia last night proceeded to Swatow, on the Chinese coast 250 miles northeast of here, to protect from pirates steamships stranded in that vicinity as a result of Wednesday's typhoon.

The typhoon was the worst in Swatow's history. The harbor there is jammed with wreckage, amid which there are many bodies. Several ships were washed ashore. Several passengers were saved.

## H. W. WOOD HEAD OF WHEAT BOARD

Mentioned for Prominent Post on Prairies.

No Statement by Alberta Farmers' Leader

Calgary, Aug. 7.—H. W. Wood, president of the United Farmers of Alberta, when asked concerning the message that he had been offered the appointment of chairman of the Wheat Board, said:

"I have not received any offer of the appointment. Mr. Wood declined to say what his attitude toward such an offer would be until he had actually received the offer."

Ottawa, Aug. 7.—(Canadian Press)—The definite refusal of James Stewart and F. W. Riddell to accept the chairmanship of the Wheat Board, in the face of strong persuasion which was brought to bear on them to persuade them to accept, has created a situation whose developments are awaited in official circles here with much interest. The demand of prairie farmers for a wheat board has been linked with a demand that Stewart and Riddell should be at its head.

It is considered here that unless the board takes definite form during this present week, there is little chance that it can handle the 1922 crop, as another few days will see wheat cutting in progress in many districts. The situation is, therefore, that with the favorites refusing to take office, there is an immediate necessity for selecting a chairman who will be satisfactory to the federal government and to the governments of Alberta and Saskatchewan and whose chairmanship will command the confidence of the farmers of these provinces and the farmers' associations.

Messrs. Stewart and Riddell telegraphed Hon. W. C. Kennedy, Friday their refusal, on reconsideration, to accept the chairmanship and vice-chairmanship, and at the same time they advised Premier Dunning and Premier Greenfield to the same effect. On Saturday the Prime Minister of Canada wired them associating himself with the Provincial Premiers in asking their reconsideration, but without effect. In the meantime, Premier Dunning and Greenfield arranged a conference at Calgary to consider the situation and make further recommendations to Ottawa.

Names Mentioned.

It is understood that on the recommendation of the Alberta and Saskatchewan Farmers' Association, the chairmanship will now be offered to H. W. Wood, president of the United Farmers of Alberta, and of the Canadian Council of Agriculture. Their second choice, it is stated, is Hon. T. A. Cramer, leader of the National Progressive Party and president of the United Grain Growers, Limited. Third on the list is J. B. Musselman, secretary of the Saskatchewan Grain Growers; fourth is C. H. Burnell, president of the United Farmers of Manitoba; and fifth, possibly J. R. Murray, Winnipeg, general manager of the United Grain Growers.

It is assumed here that Mr. Stewart and Mr. Riddell declined to accept responsibility for the board because of their conviction that only if it possessed all the scope and authority of the old board could it operate to the satisfaction of the grain growers. It is said that in a conference in Regina with Mr. Greenfield and Mr. Dunning before the legislators were called together, Messrs. Stewart and Riddell did not encourage the Premiers to proceed with the undertaking. They have taken the position that anything short of a national board with full authority would be unsatisfactory.

## LOCAL PIONEER DIED AT YAKIMA

A Victoria pioneer who had the distinction of receiving the first Pioneer Pioneer award issued by the Provincial Government of British Columbia has died at Yakima, Washington, in the person of Broome Melville. The late Mr. Melville was born in Santiago, Chile, on October 6, 1843, and eight years later arrived in California where he spent seven years before coming to Vancouver Island. For some time he was employed as draughtsman and architect with Messrs. Dunsinuir & Stone and later with the Canadian Collieries (Dunsinuir), Ltd.

He is survived by his widow, who was a daughter of the late John Thompson, a Hudson's Bay pioneer; one son, R. Melville, 532 Dunedin Street, with whom he made his home, and six daughters, Mrs. R. H. Robertson, Cumberland, B.C.; Mrs. H. Creech, of this city; Mrs. Bentley and Mrs. Cline, of Yakima, Wash., and Mrs. Jacobs.

## OBITUARY RECORD

The funeral of the late Edward A. Lewis will take place to-morrow afternoon at 3 o'clock from the residence, 842 Heywood Avenue, and at 5.30 from the Metropolitan Church.

The remains of the late William Newton Cameron, who passed away on Friday afternoon at the St. Joseph's Hospital, were forwarded by the Thomson Funeral Home, on Saturday afternoon's boat via Seattle, on route to Coleman, Texas, U. S. A. The remains were accompanied by the widow, Mrs. Martha C. Cameron, and the son, D. O. Cameron, of this city.

## RAILROAD DISASTER IN MISSOURI IS INVESTIGATED

(Continued from page 1.)

### Signal Unheeded

According to Asst. Gen. Manager Cannon, Matt Glenn, of St. Louis, engineer of the fast passenger, failed to heed a block signal warning him the track was not clear ahead. Glenn, thirty-seven years old, an engineer for thirty-five years, without a black mark against his record, was killed when he jumped from his cab just before the crash. Edward Tinsley, also of St. Louis, fireman of No. 4, remained at his post and was seriously injured.

### Only One Physician

The dead and injured were spread over an area of several city blocks, and chicken crates, automobile cushions, baggage and the railroad tracks constituted their couches. The little village of 150 inhabitants was unable to care for the injured, and the bodies were taken to St. Louis and Des Moines. Dr. W. W. Hull was the only physician administering to the injured for several hours until relief trains arrived.

One of the saddest scenes reported was that of the Degania family of St. Louis. Four of the family of six were killed and the father is dying in a St. Louis hospital. Three of the Degania children, Ralph, six; Melvin, five; and Robert, fourteen months, lay dead to the right of their father before he could be removed, and Mrs. Degania lay dead to his left.

### Strikers' Grave Aid

Strikers' union shops manned a wrecking and relief train when they learned of the accident and rushed to the scene, which was said to resemble a battlefield. Steel coaches of the express splintered the wooden coaches of the local as it ploughed its way through them from the rear, dumping passengers and debris over a quarter of a mile and tearing up the road bed and twisting rails into a tangled mass like a knotted bunch of huggers.

Coaches rolled down an embankment into a creek, which flooded the cars and, according to reports, drowned several passengers who were pinned beneath broken seats.

### Boy Scouts Assisted

Boy Scouts en route here from a summer camp, who were passengers on the local, aided in rescue work. While a few were reported either killed or missing, their coach was scattered and dumped partly into the creek, but most of the boys escaped. Scrambling down from the engine, the express, which was ditched, escaped into the wooden coaches it had splintered and cooked several victims in the wrecked coaches.

Axes and picks from emergency kits carried in the steel cars were put to heroic use by passengers who were not too greatly injured or shocked to aid in rescue work.

### Railroad's Statement

The Missouri Pacific issued the following brief statement of the disaster:

"About 7.30 p. m. train No. 4, in charge of Conductor Gregg and Engineer Glenn, struck the rear end of No. 32, in charge of Conductor Long and Engineer Cross, while No. 32 was taking water at Sulphur Springs, telescoping four rear coaches of No. 32 train and derailling No. 4's engine."

### Steel Coaches

The fast train was made up of twelve steel coaches. The locomotive of No. 4 toppled over in the midst of the wrecked coaches and the local, for half an hour a deluge of steam poured from the cracked boiler and many wounded in the wreck were scalded to death.

### "PUFFIN" IN LEAD

W. M. Hotham in his yacht "Puffin" secured the lead in the commencement of the first race for the Devonian Challenge Cup, over E. P. Ashe's yacht Vera at the Royal Victoria Yacht Club on Saturday over a ten-mile course. A fresh wind was blowing and the race proved an entertaining one. B. B. Temple acted as judge and starter in this event.

war as regards its operations and the Imperial War Graves Commission are not covered by the authority of that Commission or the Canadian agency. Special action has consequently been made necessary by the Canadian authorities as regards war veterans who may die after that date from wounds or illness contracted on service.

It is pointed out that the Canadian Government is already co-operating in the matter of personal inscriptions to the extent of bearing the cost of such inscriptions rather than have it borne by the relatives of the deceased soldiers or sailors.

The action now authorized by Order-in-Council is that the Government of Canada will bear the cost of the erection of a headstone for the grave in Canada of each member of the naval and military forces whose death has occurred or shall occur during the period between September 1, 1921, and August 31, 1922, under such circumstances and from such causes as would have brought the death within the scope of the operations of the Imperial War Graves Commission up to August 31, 1921.

The Order-in-Council further provides that the cost of each headstone is not to exceed \$50.

## STREET CAR STRIKE ENDS IN CHICAGO

Men Voted to Accept Lower  
Scale of Wages

Chicago, Aug. 7.—Surface and elevated railways voted last night 9,925 to 5,085 to accept a ten-cent-an-hour reduction in wages and return to work, thus ending a strike which has paralyzed the city electric transportation system for the last six days.

Shortly after the result of the vote was announced, the first elevated train was pounding toward the loop. City officials, however, planned to continue the operation of municipal-owned buses, charging five cent fares, against the seven and ten cents charged by the surface and elevated cars.

Saturday was marked by six deaths and scores of injured in traffic accidents attributed to the congestion caused by the paralyzing of electric transportation.

## BOY LOCKED IN CAR TRAVELED

Chicago, Lad of Fourteen  
Without Food Three Days

Chicago, Aug. 7.—(Canadian Press) —Francis Dennison, fourteen, locked for three days in a moving freight car, traveling 1,500 miles without food or water, has just arrived home from Casper, Wyo., "on the cushions."

The journey West was somewhat sudden. Francis was playing in the Burlington yards with several small boys. They entered an empty car. Then a switchman appeared. The playmates ran off and Francis hid in a dark corner. The switchman slammed the door and sealed it. Within five minutes Francis was on his way.

His rescue was due to his playmates. They told Peter Bockstahler, a foster father of the boy, that they believed Francis was locked in the car speeding West. The foster father appealed to the Burlington officials and the police. It took a long time to get a trace of the car. Finally it jolted into the Burlington yards in Casper, Wyo., and Francis was rescued. He was not so weak as expected, but was very thirsty.

## CONVICTS ARE SENT TO PRINCE ALBERT

Eighty-six from the Kingston  
Penitentiary to Work on  
Prairie

Windows of Cars Are Heavily  
Barred

Kingston, Ont., Aug. 7.—A convict train with eighty-six prisoners from the Portsmouth Penitentiary on board is now on its way to Prince Albert, Saskatchewan, where the men are to be largely employed in building operations. The convicts, who are either good conduct men or trusties, gave no trouble on their departure.

The train consists of two colonist cars with heavily barred windows, and baggage cars. The convicts are confined in the first two cars. There is a formidable contingent of officers and armed guards in charge of them, while at stations along the route Mounted Police will meet the train to make sure all is well.

## WAR PROFITS OF CANTEENS DIVIDED

Final Steps Now Being Taken  
in London

London, Aug. 7.—(Canadian Press Cable)—Interim payments on account of war canteen profits amounting to £12,000 have already been made to Canada, according to Sir Laming Worthington Evans, Minister of War. The Australian Imperial Force has received £245,000, and South Africa £18,000. Steps are now being taken to make final allocation of the balance due each force, Sir Laming stated.

## SUPPORT GIVEN HUGHES AS LEADER

Australian Premier Endorsed  
Again as Coalition Leader

(Times Correspondence)  
Melbourne, Aug. 7.—Once more Rt. Hon. W. M. Hughes has got the better of those who would oust him from the Premiership and replace him with a thoroughgoing Liberal like W. A. Watt, the former Commonwealth Treasurer.

Mr. Hughes, prior to the opening of the Federal session, toured the Commonwealth, and during his absence political rumors were rife as to the possibility of the Liberal wing of his Liberal-Labor coalition taking charge. That Mr. Hughes was too dictatorial was the allegation. He had been very rude to political deputations. The cabal made headway, fostered by the Liberals, who thought the time ripe to get rid of a Labor Prime Minister. However, Mr. Hughes's return it was immediately apparent that there was no other leader of the Coalition if he left. He emerged from caucus with the strains of "For He's a Jolly Good Fellow," ringing in his ears.

The programme for the session includes a bill to give Indians resident in Australia full rights of citizenship, as asked by Rt. Hon. S. Macdonell, the Labor Party, in opposition, will fight the measure.

Yacht Thieves Arrested.  
Two thousand miles from where she was first missed—Auckland, N.Z. last seen by the New Zealand cruiser Chatham made a search for her, but without result. Terrific gales and waterspouts occurred meantime in the South Pacific and the Raata had been given up for lost, when she put into the little port of Yeppoon, near Rockhampton, Queensland. The three men aboard were starving and the boat lacked fuel also.

The police were on the watch for the Raata and the men were promptly arrested, to be taken back to New Zealand. They had many narrow escapes from spies from the coast guard, and claimed that if they had not met with such bad weather they could have got clear away to the South Seas with their stolen boat.

Australian Navy.  
Australia's navy will consist for the future of the three cruisers, Adelaide, Melbourne and Sydney, the latter being the most modern destroyer of the Empire, together with two destroyers, the Anzac and the Stawell. The battleship Australia has already been removed from the active list, and the Brisbane is being scrapped. Other lesser craft will be placed on the reserve list.

The purpose is economy and the example of reduction of naval forces set by the other Dominions.

Railway Completed.  
Tasmania holds the world's record for railway construction—not for speed, but for slowness.

In the year 1858, when the Duke of Edinburgh, son of Queen Victoria, was in Tasmania on a visit, he turned the first sod of a line to be built between Launceston and Stanley. It has just been finished—the whole 154 miles of it, the longest line in the state. It has progressed to completion at a speed of a little over three miles a year.

The Premier, Sir Walter Lee, opening the new line, said nothing about the time it had taken to build it.

OTTAWA, Aug. 7.—(Canadian Press) —A decline in construction building throughout Canada during the month of June as compared with the previous month is shown by Labor Department figures issued today. The total, which was considerably higher than for June last year, was \$15,799,680 for fifty-six cities, as compared with \$17,765,325 in May, 1922, and \$12,908,151 in June, 1921.

Prince Edward Island, New Brunswick, Manitoba and British Columbia reported increased issues of building permits in June, 1922.

The increase of 44.6 per cent in Saskatchewan was the noteworthy feature.

Toronto, Winnipeg and Vancouver showed increases in the amount of building authorized during June.

TWO MEN LOST  
LIVES IN WELL  
Killarney, Man., Aug. 7.—Robert Deacon and Donald Ross lost their lives here Saturday when overcome by gas in putting down a well on a farm near here. Deacon was working when eight feet down, and fell sixty feet to the bottom. Ross met a similar fate when attempting to rescue Deacon.

RAIN BRINGS RELIEF.  
Vancouver, Aug. 7.—While last reports from northern and Central British Columbia indicate a continuation of serious forest fire conditions, a change of weather on the lower mainland, which is believed to be extending distinct note of relief to harassed fire fighters all over the province. Rain fell in Vancouver yesterday for the first time in seventy-five days. Indications are that there will be more rain. Yesterday's shower lasted half an hour.

A little boy ran into his father one day appearing very excited. "Dad," he yelled, "the kettle and teapot are in the kitchen on the stove singing for a wager!" "Singing for a wager?" "Well," replied the boy, "the frying-pan is in between them holding the steaks."

## WOMAN'S WORK NEVER DONE

It Seems So in Many Cases  
and Good Health is Always  
Necessary

Viscount, Saskatchewan.—"I took Lydia E. Pinkham's Vegetable Compound for weakness of the female organs. I had pains in the back and bearing-down pains in the abdomen and was in a general run-down condition. I could not sleep, rest or work and was quite unfit to do even slight household tasks. A friend told me about your Vegetable Compound and I in my turn truly recommend it, as my severe symptoms vanished and I am better in every way. I do my own work, look after my children and see to chickens, cow and my garden. I also recommend it for young girls who are weak and run down, as my 15-year-old daughter has taken it and is quite her own gay self again."—Mrs. FERN WILLY, Viscount, Saskatchewan.

I Live On A Farm  
Upper New Horton, N. B.—"I have taken Lydia E. Pinkham's medicines and they have done me a world of good. Since then I have been able to do my housework and I have a lot of work to do as I live on a farm. Seeing your advertisement in the papers was what made me think of writing to you. I hope you will be some day."—Mrs. Wm. B. KENNY, Upper New Horton, New Brunswick.

## FIRE DESTROYED SLEEPING CARS

Thirty-one Persons Injured in  
Washington State

Seattle, Wash., Aug. 7.—Fire destroyed the rear-end sleeper of a Chicago, Milwaukee and St. Paul express train at an early hour yesterday morning 150 miles east of Seattle. W. Kelch, an actor, was seriously hurt and thirty other people in the car were burned, cut and bruised in their frantic efforts to get out of the car. William Wilson, colored porter in charge of the car, signalled the engineer and as soon as the train slowed down started to uncouple his car from the train, with the result that a spread of the flames to the rest of the train was avoided.

Kelch kicked a window out and carried his wife out of the car before he collapsed. He was the most seriously hurt of all.

The cause of the fire is unknown.

## RAINS WELCOMED IN SASKATCHEWAN

Feed Supply Increased; Grain  
Crops Benefited

Saskatoon, Aug. 7.—The recent heavy rains which fell over the northern territory and appear to be over now, arrived in time to save the feed situation, which was rapidly becoming serious. The rains will result in a limit increase in wheat yields, as late sown fields will fill better and there should be a marked increase in the crop of late oats. There was a heavy rainfall, commencing with a shower on Friday night and falling almost steadily until Sunday morning.

Then he took a false step. Becoming hard up he appropriated six blank cheques from his employer's cheque book.

On these he filled in various sums of money amounting to about \$26. He signed them "Arthur Sutton" (note spelling) and passed them on six different tradesmen in Boscombe all of whom knew him as chauffeur to Arthur Warwick Sutton.

He visited a Boscombe chemist and presented him with a cheque, not knowing that information had already been given against him to the Boscombe police by this chemist.

This gave the police just the opportunity they wanted. They immediately informed Mr. Sutton of his arrest on that charge.

Even then Allaway thought he was clever enough to get clear. "They will never get me," he boasted, "not for the murder." And then, by what he must have thought a sufficiently skilful ruse, he quitted Boscombe for Reading.

He was captured, his house searched and sufficient evidence found to convict him.

## MURDERER CAPTURED THRILLS ENGLAND

London, July 21.—(By Mail) Capture of the murderer of Miss Irene Wilkins at Bournemouth by British provincial detectives has aroused all England in admiration of one smart piece of detective work as may be found in police annals anywhere.

The woman, thirty years of age, was lured to Bournemouth by an advertisement offering work, taken from the station in a motor car and murdered by the side of a lonely road. The crime was committed by a chauffeur living in the town with his wife and child.

Irene Wilkins was killed on December 22 last and, in tracing her slayer, the police resorted to extraordinary methods. Bushels and bales of evidence had to be sifted and, while the police net was being spread around him, the murderer went about town in the ordinary way, even visiting the scene of the crime with his wife and child. As he was employed in a garage next to a theatre, he found out how to throw the police off the track, he said his face each morning with stain to alter his complexion. This device was found out when a policeman noticed a bare spot which he had missed at the back of his neck.

Handwriting supplied the main evidence in pinning the crime on Allaway, the Bournemouth chauffeur subsequently sentenced to expiate his crime on the scaffold. In tracing his victim to the town, the criminal had sent several telegrams to her. These were obtained from the telegraph company as original filed and, to obtain specimens of Allaway's handwriting, numbers of letters were sent to him from various places under direction of the police. Allaway, in answering the letters, supplied the evidence against him. Letters were sent to him in an effort to get him to write down words such as were contained in the original telegrams. A great catch for the police was recorded when Allaway unconsciously wrote "Will" and "Kinsman," from which they could piece the word "Wilkins."

Meanwhile Allaway walked unconcernedly about the town, associated with his friends in the two clubs he favored, and at the Salisbury Hotel, Boscombe, could be seen on any night about 8 o'clock seated in front of a glass off beer cracking jokes with those around him, oblivious of the fact that the police were gradually weaving a fatal web around him.

Post Office Trap.  
Another Sherlock Holmes-like ruse was then adopted. Allaway was called in the ordinary way, given a parcel to post at the Boscombe post office, to which he had not been since the decoy telegrams were handed over the counter. None of the clerks was aware that Allaway was to come in to the post office that morning.

Boldly he walked up to counter, handed in the parcel, and then asked "Am I to stick this stamp on myself?" Standing near the counter was Miss Waters, who instantly recognized the voice as that of the man who in December last handed to her one of the Wilkins telegrams, for she had had to query the word "car," which had been written something like "ear."

Miss Waters whispered to her friend, Miss Diplock, "That is the man who handed in the decoy telegrams; I am pretty sure of it."

One of the girls hurried to the back of the post office to tell the postmaster. He rang up the Boscombe police station, and an inspector coming round, immediately recognized the man as Allaway.

All this time Allaway was growing more confident that the precautions he had taken of destroying all specimens of his handwriting prior to the murder of showing himself in public, of continuing to visit his favorite clubs and haunts with something of bravado, were proving successful.

Forged Cheques.  
Then he took a false step. Becoming hard up he appropriated six blank cheques from his employer's cheque book.

On these he filled in various sums of money amounting to about \$26. He signed them "Arthur Sutton" (note spelling) and passed them on six different tradesmen in Boscombe all of whom knew him as chauffeur to Arthur Warwick Sutton.

He visited a Boscombe chemist and presented him with a cheque, not knowing that information had already been given against him to the Boscombe police by this chemist.

Even then Allaway thought he was clever enough to get clear. "They will never get me," he boasted, "not for the murder." And then, by what he must have thought a sufficiently skilful ruse, he quitted Boscombe for Reading.

He was captured, his house searched and sufficient evidence found to convict him.

## NEWFOUNDLANDERS VOICE OPTIMISM

Industrial Outlook of Island  
Grows Brighter

St. Johns, Newfoundland, Aug. 7.—Newfoundland newspapers are finding it possible to strike a most optimistic note in discussing the industrial outlook in the ancient colony.

Two of the country's most prominent men, Sir Patrick McGrath and Sir Richard Squires, Premier, are in Europe, or en route there, in the interests of the greater development of Newfoundland and with reason to hope that their visit will hasten the financing of a \$25,000,000 wood pulp mill project which will tap one of the country's almost limitless resources, and according to Sir Patrick McGrath, solve the country's most important industrial problem.

In addition to the above, there is another cause for optimism—resumption of iron ore shipments to Germany. Three quarters of a million tons of ore from Wabana are to be delivered to Rotterdam for transshipment via canals into Germany. At the present time practically all the ore shipped out of Wabana is for Germany.

Overseas shipments of iron ore from Wabana have been practically nil since 1914. Previous to the war the Scotia company, then owners of practically all the iron areas in Wabana, shipped annually about 100,000 tons to Europe. The new contracts with German agencies will not only bring about a revival of pre-war prosperity in that district, but will

create an exceedingly greater activity in the Wabana district.

The collapse of the German mark abroad will have no bearing upon the dealings with the Wabana people, because arrangements have been made whereby all payments have been provided for by drafts on British banks and the British Empire Steel Corporation will receive payment in British money.

## UNEMPLOYMENT PAYMENTS IN BRITAIN

London, Aug. 7.—(Canadian Press Cable)—Unemployment benefits disbursed in Great Britain in the last two years amounted to £77,000,000, it was announced by Rt. Hon. T. J. Macnamara, Minister of Labor. This total does not include relief granted by local boards of guardians or other relief bodies, but relates to Government unemployment insurances.

The administration costs of the distribution of this relief for the same period amounted to £7,500,000.

## IMMIGRATION.

At a time when the greatest movement of peoples in the history of the world should be reflected by an increase of new settlers in Canada it is a melancholy fact that this country is actually losing a large number of her own people and lagging behind in immigration. During the months of April, May and June of this year just a little over 25,000 emigrants entered this country from Great Britain, the United States, and foreign lands as compared with 41,472 during the corresponding period of last year. This alarming falling off is serious enough in itself; but when it is contrasted with the size of the national debt it becomes a matter of extreme gravity. It does not follow that the various movements which are now under way are foredoomed to failure; but the figures which have just been made public lend emphasis to the fact that the governments of this country must exert themselves to the utmost limit if they desire to usher in that era of prosperity which is often spoken of without adequate appreciation of what is necessary to assure it. At the present time this country is facing an economic condition and a national indebtedness which are far greater than that which confronted 38,000,000 people on the other side of the line after the Civil War. How can less than nine millions carry the load? They cannot do it. Therein is the most pressing need of the moment clear.

## PROVISION TO BE MADE.

It must have been particularly gratifying to the members of the various ex-service organizations in Victoria to learn from the Hon. Dr. Beland that it is the intention of the Dominion Government to take the case of the disabled veteran into special consideration. The minister will have had an opportunity during his visit to the West to learn something of the excellent work that has been carried on by the Red Cross Society, and he will have appreciated the fact that the all important groundwork of an extremely essential undertaking already exists and will enable prompt and effective expansion without qualms as to its efficiency. We shall hope that Dr. Beland will not overlook the tubercular charges of the country. Their predicament is different from that of the ordinary disabled case. An apparent recovery from the malady in so many instances has simply meant a further course of institutional treatment, because of the absence of after-care facilities. He needs the sheltered employment just as much as the man with limbs that have been damaged.

## THE LEADERSHIP.

If the Conservatives of British Columbia have been laboring under the impression that Mr. Bowser would adopt a dog-in-the-manger attitude at the forthcoming party convention their doubts will have been set at rest by the statement which the Opposition Leader has himself made public. He points out quite clearly that the Conservative Party in British Columbia will cease to exist when the gathering convenes in Vancouver and that in its stead the Federal and provincial bodies which cherish the belief that Toryism still lives in Canada will go into business under the style of the Liberal-Conservative Party. In other words he will automatically cease to be the guiding spirit of a political organization whose fortunes have been at an extremely low ebb for several years past and whose future would seem to be still more in doubt by virtue of the proposed amalgamation with a national body that read its own obituary

on a memorable day in December of last year.

But Mr. Bowser does not propose to take dictation from the disgruntled elements in the Conservative Party as at present constituted in British Columbia. Even if he fails to see the point or possibilities in the amalgamation he does not propose to allow himself to be moved by those die-hards who have long shown their impatience at the continued delay in the procession that they consider should have led them back to the fleshpots many moons ago. Not a bit of it. Nor is it easy to believe that the years of service which Mr. Bowser has given to Toryism in British Columbia will be rewarded by summary dethronement by the amalgamation route. It is true that the Government of 1916 went the way which all Conservative Governments in this country have gone; but that is no reason why valiant service in the hopeless task of reviving a languishing cause should not be acknowledged.

In his self-styled capacity as the "watch dog of the people" Mr. Bowser has filled a difficult role with considerable skill; he has discharged his duties, wrongly interpreted as they often have been, with an indefatigable industry that a successor would not find simple to generate as the expiry of Toryism draws nearer. Surely British Columbia's disciples of a lost hope will be chivalrous enough to allow the pilot to remain on the bridge until the last. They must realize that the new name will be more of a hindrance than a help to him who knows the old ship so well. So why choose a new skipper and endow him with a double handicap?

## CANADA AND RUSSIA.

While diplomatic experts and the statesmen of Europe are still wrestling with Russia's problem the Anglo-Russian trade agreement seems to be anything but a discarded instrument. This country will adhere to its provisions as long as there shall be such evidences of good faith on the part of the authorities at Moscow as will warrant commercial intercourse. Preparations are now being made for the sending of a Canadian Trade Commissioner and other representatives to Russia and the Soviet Government will doubtless take a similar course and send a trade ambassador to this country. No emphasis is necessary for the suggestion that the Administration at Ottawa will not accept any sort of financial responsibility in behalf of Canadian exporters.

It goes without saying that there will be nothing in the nature of a stampede on the part of Canadian manufacturers to get business for which payment may be in doubt for some considerable time. On the other hand Russian industry never will be revived and Russian ability to pay never will be simplified until Moscow and the rest of the world get back to a buying and selling basis. Before this can take place Russia will require an enormous amount of manufactured materials the supplying of which should yield some profit to industrial Canada. After all there are many advertised speculations considerably more risky than the course which the trade agreement ought to open up.

## GOOD WORK.

According to a report issued from the offices of the Agent-General in London the beauties and advantages of British Columbia have been outlined to two hundred and fourteen audiences in the United Kingdom during the last three years. This is an excellent showing in itself and demonstrates the fact that the agency which this Province maintains in the Empire's metropolis is not engaged in the figurative operation of twirling its thumbs. We shall take it for granted that as soon as Mr. Wade gets back to London he will take up the several schemes which he has discussed with the Government in the hope that this part of Canada may assist in doubling immigration figures that are now showing such a serious falling off.

There ought to be plenty to appeal to the imagination of the intelligent individual on the other side of the water after listening to an illustrated lecture

on the possibilities which British Columbia offers. The Agent-General is particularly well supplied with all the information that an intending emigrant should require, and he can be depended upon to relate nothing that cannot be substantiated in every particular. He will do well to be almost brutally frank with such audiences as he may address. Let the seekers of new homes know that there are many and complex difficulties to surmount before the road to a competence becomes clear. The settler who is going to make a good Canadian will not mind taking a long and serious look at the drab side of the picture. He wants facts. The man who would turn his back upon them and think of a Promised Land without hard work with brain and muscle had better stay at home.

## NOTE AND COMMENT

If Germany really believes that she is going to escape penalties because she is too hard-up to pay her pre-war liabilities to France she seems doomed to disappointment.

That promise of rain which appeared to have been made by the gathering of clouds yesterday has been dissipated by a return of cloudless skies to-day.

British Columbia Conservatives do not seem to be able to read the signs. Imagine forming a Liberal-Conservative Party in this Province while Conservative Governments are as scarce as hen's teeth!

German monarchists have threatened to take the life of Professor Einstein. Professor Einstein received the notification and promptly took his departure to points not advertised. Could there be a more simple study in relativity?

## EMPLOYEES' OUTING

C.P.R. Social Club Held Picnic at Goldstream.

An enjoyable outing was held at Goldstream on Saturday by the Canadian Pacific Railway Social and Athletic Club, when several hundred people took advantage of the opportunity to spend a day in the open. An excellent programme of sports was carried out, and good prizes were given. The affair was in the nature of a basket picnic, and the youngsters had a great time. The tug-of-war between the departments of the company aroused keen interest and a lot of fun. There was a good number of interesting events for the adults, and everybody thoroughly enjoyed the entertainment and sport. There was no delay between the sports and the various committees in charge of the picnic carried out their duties in a most acceptable manner which was appreciated by all.

## AMERICAN CLUBS TO PROTEST MANAGEMENT OF BIG GALA HERE

Seattle, Aug. 7.—Coach Dan Vickers, of the Crystal Swimming Club, Seattle, announced to-day that he would make a protest to Earl A. Fry, local representative of the Amateur Athletic Union, against the management of the Northwest Outdoor Swimming Championships held at the Gorge, at Victoria, B. C., Saturday by the Victoria and Island Amateur Association. Mr. Vickers declared that the Multnomah Amateur Athletic Club, Portland, had expressed its intention of making a similar protest. Mr. Vickers said that he will make his charges public after Mr. Fry has had an opportunity to investigate them.

## WHOLESALE TOUR

Party Leaves City This Morning for Inspection Trip.

The party of Victoria wholesalers making their annual tour of Vancouver Island left the city early this morning. Five motor cars carrying about twenty local representatives are making the trip. Luncheon was taken at Duncan and the party will stop and size up conditions in all the districts served by Victoria. It is understood the party will spend about a week on the tour. F. L. Elworthy of Victoria Chamber of Commerce accompanied the party.

## FOREST FIRE FINES.

Terrace, B. C., Aug. 7.—E. Jopp, G. Swanson, J. Viger and J. Wells were convicted in police court to-day of having set on fire in contravention of the Forest Act and each was fined \$10 and costs. F. Bedore was fined \$10 for refusing to help fight a fire.

## NATIONS' LEADERS IN CONFERENCE DEBATE PROBLEMS

(Continued from page 1.)

Allied indebtedness must not be excluded from the discussions, especially as Raymond Poincare, the French Premier, is credited with bringing to London a plan for the extinction of the German reparations bonds in exchange for a cancellation of the French debt to Great Britain. This plan meets with little sympathy in Great Britain, because it is contended these German bonds being admittedly worthless, Great Britain would gain nothing, but by foregoing the French debt, would lose the last weapon she possesses for bringing pressure to bear upon France on the question of armaments or any policy in which France might run counter to British ideas.

**French Measures.**  
The situation is further complicated by the ultimatum France delivered to Germany concerning Germany's payments on account of clearing house debts and the measure which France already has ordered taken in this connection. Little hope seems to be entertained here that the conference will be a successful one, although it is fully recognized that in view of the swift fall in the value of the mark, which threatens to bring Germany in the wake of Austria and Russia financially, a situation has been reached in which half-way measures no longer will be of avail.

The correspondent of the Associated Press, who accompanied the French delegation from Paris to London, says he learned that M. Poincare was coming to the conference with a definite programme calling for the far wider financial supervision over Germany than that recently negotiated by the Committee on Guarantees and approved by the Reparations Commission and the War Cabinet.

**Inspection.**  
Under this programme, German customs would be placed under the inspection of representatives of the Allies without these representatives being receiving officers or directly handling any money. The plan would provide that new issues of paper money must be authorized by the Allies, who also would have the final word of approval on the round sum of Germany's appropriations. M. Poincare's plan, the correspondent learned, is the arrest of inflation, a check on expenditures and to have a certain lien on traffic receipts. Besides, the French proposals will include participation in German industry and transportation, especially on state-owned property.

**Short Memorandum.**  
If Mr. Lloyd George, Signor Schanzer, Italy, and M. Jaspard, Belgium, accept the plan, or one equally radical, in establishing effective guidance for Germany's finances, and enforce it resolutely, then M. Poincare, it is understood, will be prepared to agree upon a rather short moratorium to give time to put the measure into operation and to see how Germany receives and executes the Allied plan.

M. Poincare comes to London, it is said, prepared, if a strong united effort is impossible, to insist upon each ally having liberty of action under the French interpretation of the Versailles Treaty.

## GERMAN SHIPS RETURN HOME

Lisbon, Aug. 7.—German ships in the service to and from Brazil have been ordered by the company to return to their home ports and not to touch any French port for fear of seizure which France may threaten for Germany's failure to pay reparations.

torium to Germany for the remainder of the calendar year on reparations. It also rejected Germany's offer of payments of £200,000 monthly on the balance of her pre-war debts. A communication to this effect has been issued by the Reparations Commission. The resolution which would have accorded a moratorium to Germany and accepted Germany's offer of the payment of £200,000 monthly on her pre-war debt was offered by Sir John Bradbury, the British delegate.

An announcement says the Commission has decided to postpone further action until after the London Conference.

### WOMAN DIPLOMAT FOR WASHINGTON

Bulgarian Embassy Appoints  
Mlle. Stancioff First  
Secretary

London, Aug. 7.—Mlle. Nadeja Stancioff, eldest daughter of the Bulgarian Minister in London, has been appointed First Secretary to the Bulgarian Legation in Washington.

A tall, dark woman with large, smiling eyes, Mlle. Stancioff is twenty-seven and speaks six languages. She was secretary interpreter at the Paris Peace Conference and the Geneva Conference.

"It all came about through a chat I was having recently with the Bulgarian Premier, M. Stambouliski," Mlle. Stancioff told a press representative.

"After he had told me that he was sure I could keep secrets I accepted the post. I am in love with diplomacy, but, you know, women are very weak, and if I should happen to fall in love I should resign my position and leave diplomacy."

Mlle. Stancioff will take up her duties in Washington at the end of September.

Other women diplomats are: Lady Surma d'Almeida, plenipotentiary of the Assyrion tribe in London; Miss Clotilde Luisi, attaché to the Uruguayan Legation at Brussels; Miss Henrietta Hoogh, First Secretary at the Norwegian Legation in Mexico.

Regulations issued in April 1921, reserve all posts in the British diplomatic and consular services for men.

### IS ORGANIZER OF MIDSUMMER FETE

Countess d'Audiffret of Paris, with the assistance of the Canadian Legion and a number of leading society women, is arranging a most attractive and unique Midsummer Fete of Old France.

Among the many attractions will be a cabaret arranged by Mrs. Holden, and in which Madame Lugrin-Pahey will sing. Members of the staff, Angèle Campbell, Ltd., will serve punch from a well, those in charge of this feature being the Misses Starratt, Bell, Malloney and Mallow. The carnival will be held at the Armories on Thursday evening of this week, the doors opening at 7.30. At 8.30 the affair will be formally opened by Mrs. W. C. Nichol.

### WOMAN ENGINEER ON BLUE FUNNEL LINER

God-daughter of Queen Victoria Is Graduate Marine Engineer

London, Aug. 5.—If the ambition of Miss Victoria Drummond, now working in the Liverpool office of Messrs. Alfred Holt & Co., Ltd., owners of the Blue Funnel Line, is realized, she will be the first woman engineer to go to sea in a liner.

Miss Drummond is a dark-haired, athletic-looking young Scotswoman, and for six years she has worked in the engineering office of the Caledonian Shipbuilding and Engineering Co., Ltd., Dundee. A press correspondent found her wearing a horn-rimmed spectacles and poring over formidable engine designs spread on a desk.

"My ambition is to go to sea as an engineer," she declared. "I believe I will be the first woman to achieve this. I am hoping to leave in a month or two. I am not a bit shy of being the only woman working among men in the bowels of a ship, and I am devoted to engineering. I find it a fascinating subject."

The Blue Funnel liners run to China and Australia, and as a large part of the journey is through the tropics the conditions of the engineers' work are arduous.

Miss Drummond is a grand-daughter of the first Lord Aberdeen of Hackney, who died in 1812, and a god-daughter of Queen Victoria. She is a graduate of the Institute of Marine Engineers.

### TO MEET LEADING INDIAN.

A quiet wedding was solemnized on Thursday evening last, at St. Mary's Church, Oak Bay, when Miss Dorothy Marguerite Field became the bride of Mr. Robert Kiers. Wood, only son of Mrs. M. I. Wood, of Gateshead, England. The Ven. Archdeacon Sweet-officiated. The bride was given away by her father, Mr. Robert Kiers, and the bridesmaid was Miss Gladys Irving. The bride wore a dress of light blue broadcloth and hat to match and carried a bouquet of opelia roses and maidenhair fern. She was attended by her sister, Miss Annie Gertrude Field, who wore a very pretty dress of peach-colored satin and hat to match and carried a bouquet of pink carnations. The groomsmen were Mr. Sydney Sherratt and Mr. Robert Kiers. After a reception at the home of the bride's parents, Mr. and Mrs. Wood, the bride and groom left for their honeymoon at the Hotel Vancouver in this city. The bride was the recipient of many beautiful presents.

A pleasing success has come to Mrs. E. M. Cuppage, well-known local journalist, in the acceptance for publication by the Drama League of America of her first play, "Pilate's Wife." It was selected out of over 150 submitted in a competition for a play on a biblical theme. Mrs. Cuppage, who has recently entered the fiction field under her own name of Madeleine Reade, is a grandniece of Charles Reade, famous English author and playwright, and on her mother's side is a descendant of George Coleman, "the father of the English drama." She edited the "Ladies' Review" from 1913 until 1916, and since then has been identified with Victoria and Vancouver newspaper staffs. News of her success has reached Mrs. Cuppage in the Okanagan, where she is holidaying and writing a short series of articles for The Vancouver World.

Before the war Mrs. Cuppage owned and sailed the auxiliary yawl Ailsa I, and did the honors as lady commander of the Cadboro Bay Yacht Club.

### DR. HARTMAN WEDS NORMA TALMADGE'S FEATURE WRITER

Marriage Follows Two Weeks' Romance in New York

His Parents Return to Victoria After Plaza Hotel Ceremony

Dr. Leroy L. Hartman, a Victoria born and educated boy, was married in New York recently. It was disclosed here to-day on the return from New York of his father and mother, Dr. and Mrs. S. M. Hartman, of 1099 Cook Street.

The bride was Miss Alma Livingston Frank of New York, the most inent young feature writer, who had been on the staff of the Talmadge sisters at their film studio. The wedding ceremony and luncheon took place at the Plaza Hotel, Fifth Avenue and Central Park. Norma Talmadge congratulated the bride and bridegroom and sent them a whole silver tea service as a wedding present. Madame Olga Petrova sent a large art lamp.

Dr. Leroy Hartman went to New York last Spring to take post graduate work at Columbia University. While there he met Miss Frank and within two weeks they were engaged. When his father and mother who left here last May for their Eastern trip learned of the engagement from Dr. Leroy himself in Chicago, they said they would like to be present at the wedding, and reminded him that New York was a long way off from Victoria. Dr. Leroy immediately telegraphed his fiancée with the result that the ceremony was performed shortly after they reached New York. Dr. Leroy and his bride have been honeymooning at Banff and along the line of the C. P. R. They arrived in Seattle just a couple of days before his parents reached the Coast over the Southern route. Dr. Leroy Hartman will resume his practice in Seattle at once.

Dr. and Mrs. Hartman were in Chicago for a month and attended the Northwestern University commencement where their elder son, Albert, was formally inducted into the law. Dr. Albert Hartman was also educated here in Victoria High School and Victoria College. He is now taking up his work in New York City.

Brilliant Soloist.

Miss Bertha Hartman accompanied her parents to the East and is now continuing her vocal training in Chicago with Sebastian Burnetti, who was with Jean DeReszke for years in Paris. Professor Burnetti is much impressed with the capabilities of Miss Hartman's voice, which he declares is a natural contralto not often found. He is placing her in concert

work next year. Professor Burnetti congratulated her on the careful training she received in Victoria under Mrs. Robert Baird.

In some day not far distant, Victoria will be proud of her native daughter. It is the message Professor Burnetti has just sent in describing the progress Miss Hartman is making.

Tooth Pulling Bad.

Dr. Hartman, while in the East went into the latest work that has been done in pyorrhea. He said to-day that 98 per cent. of the pyorrhea cases are now being treated success-

fully and that the leading men in the profession have abandoned the practice of ordering patients' teeth all out for that and other diseases. Dr. Hartman says that latest research work has revealed that the wholesale extraction of teeth, while perhaps profitable to dentists, is not only folly but wicked, as most of the extractions are unnecessary and the patient is never as well afterwards because efficient mastication is not obtained with false teeth.

## Those Pretty Teeth

How careful people get them

Careful people—millions of them—are brushing their teeth in a new way. They do it almost the world over, and largely by dental advice. Whiter teeth is one result. You see them everywhere. Now we urge you to try the method which they use. Ask us for a ten-day test.

### Just remove the film

It is film that makes teeth dingy. That viscous coat clings to the teeth, enters crevices and stays. The tooth brush used in old ways has left much of it intact.

Film is what discolors, not the teeth. Film is the basis of tartar. Most people's teeth are kept clouded by it, more or less.

Film also holds food substance which ferments and forms acids. It holds the acids in contact with the teeth to cause decay. It breeds millions of germs, and they, with tartar, are the chief cause of pyorrhea.

All these troubles have been constantly increasing. And most of them are traced to film which old-way brushing left on teeth.

### What must be done

Dental science, after long research, has found two film combatants. Able authorities have proved

their efficiency. Now leading dentists, here and abroad, are urging their daily use.

A new-type dentifrice has been created, called Pepsodent. It complies with modern requirements. And these film-fighting methods are embodied in it. Every use attacks the film in two effective ways.

### Aids Nature too

Gummy starch deposits also cling to teeth, and often ferment and form acids. To digest them, Nature puts a starch digestant in the saliva. Every use of Pepsodent multiplies that starch digestant.

Nature puts alkalis in the saliva to neutralize mouth acids. Each use of Pepsodent multiplies those alkalis.

Thus Pepsodent twice daily brings five desired effects. It has brought to millions, as it will to you, a new conception of clean teeth.

Send the coupon for a 10-Day Tube and watch the delightful effects. Note how clean the teeth feel after using. Mark the absence of the viscous film. See how teeth whiten as the film-coats disappear.

See the new beauty, feel the new cleanliness. Then judge for yourself what such results may mean to you and yours. This is too important to forget. Cut out the coupon now.

# TRIBUTE PAID TO MEMORY OF SOLDIER-JOURNALISTS

(Continued from page 1.)

British Empire. We are met to-day beneath the classic dome of this stately rotunda to unveil a tablet to the memory of those who died. Beneath the tablet an illuminated scroll appears containing the names of all who went. We are met to-day to pay the highest honors in our power to this group—our gratitude and respect to the living, our tears for the noble dead.

We are told that joy's recollection is no longer joy, but sorrow's memory is sorrow still. In such fashion our minds go back this afternoon to the last we saw of the gallant and gifted youths who were away to return no more. We of the journalistic profession recall the days when they dropped the hands which clasped theirs in affectionate farewell and said goodbye to their loved ones and went away to vanish in the great silence and mystery of war. Bright, keen, alert young men they were seeking the great adventure with a laugh on their lips and sadness in their hearts; some so affected at leaving old friends that the laughter died and the tears came. And so we parted. And true it is that sorrow's memory is sorrow still.

A Wonderful Training. "I would say on this occasion that an active life in the editorial department of a real newspaper brings out of those who pursue it all that is in them of devotion and loyalty. The eager and unselfish desire, of young enthusiasm to obey those in command is more marked in newspaper work than in any other calling I know of when it is under the immediate direction of men of high intelligence who possess and know how to employ the qualities which bring it forth. A good newspaperman is like a good soldier—devoted to his duty. Good newspapers can not be made except under this condition. Soldiers can not fight nor can battle be won without it. It is poor consolation, perhaps, and yet to journalists present there is a measure of solemn pride in the reflection that we are honoring to-day the memory of men who proved fit representatives of the highest standards of their newspaper training and gave to the country which they loved that same splendid loyalty which they had learned and developed in the editorial room. I don't believe in the dictum of the first Napoleon that 'the worse man the better soldier.' It can not be the case. We who have worked together beside the men whose memory we glorify and honor to-day know it.

"To the sacred memory of those of our number who are out on their last great assignment, I now, formally unveil this enduring tablet."

## The Attorney-General

Hon. A. M. Manson, Attorney-General, accepted the tablet on behalf of the Government in the absence of Hon. John Oliver, the Premier. Mr. Manson spoke of the fine young men who had gone overseas from British Columbia, of the high ideals they represented, and of the lesson their example set to those who were living. The Minister pointed out that the idealism engendered by the war was suffering in the present trying times, and urged his hearers to take courage from the example of those who had gone before.

## President Scott

Mr. Scott briefly reviewed the circumstances under which the tablet had been erected, and expressed the opinion that if the Institute had done nothing else than to erect that memorial it would have justified its existence. He pointed out that the young men, the heroes, who had hastened overseas and so bravely distinguished themselves had proved their adaptability to things of action as well as to things of peace. Mr. Scott gave a touching description of one or two intimate cases of men whose names were commemorated on the tablet, and showed how they had overcome natural sensitiveness to war and its horrors.

Mr. Scott thanked the Victoria newspapermen who had arranged the details of the ceremony and called upon Mr. Lukin Johnston to state the circumstances under which the memorial had been prepared.

Mr. Lukin Johnston made an excellent address, explaining the efforts of the Institute to secure a permanent memorial in a place where the heroic acts of the men whose memory they had honored that day would be a stimulus to those who came into that building to make the laws of the Province. Owing to the number of men in the profession, a Bohemian one in which men came to know one another so well, who had served overseas, it had been the endeavor of the ceremony and called upon those who had gone from the profession into the army direct, and thus many now associated with the papers of the Province did not have their names listed on the scroll.

At the conclusion of the ceremony in the Parliament Buildings the press party journeyed by trolley to the hotel, where Mr. and Mrs. R. P. Butchart dispensed hospitality in their own inimitable way to the delighted visitors. The day's programme wound up in the evening with a dinner at the Empress Hotel.

The visiting journalists arriving on the Vancouver boat were: World—Mr. and Mrs. Sydney Scott, Mr. and Mrs. E. B. Mayon, Mr. and Mrs. E. A. Leslie, P. B. McNamara, J. E. Norcross, P. W. Luce, Noel Robinson, D. A. McGregg, Mr. E. B. Baker, Mrs. McLaglan and Miss Luce.

Province—Mr. and Mrs. Ronald Kenyon, Mr. and Mrs. Lukin Johnston, Mr. and Mrs. A. R. Dingman, Mr. and Mrs. Ross, J. B. Fitzmaurice and P. J. Burd. Mr. Burd represented the management of the Province.

Sun—Mr. and Mrs. Frank Hopwood and J. Francis Bursill. Pacific Coast Lumbermen—Mr. and Mrs. R. M. Easie and Mr. and Mrs. John Williamson. Canadian Press Association—Mr. and Mrs. F. J. Turner. Board of Trade News—Mr. and Mrs. H. Beaman. Journal of Commerce—Mr. and Mrs. William Findley and Mr. and Mrs. H. Nelson.

Patron Grey Gazette—Alex. Paton. Columbian—V. E. Andrew and Miss Purkin. Vernon News—D. J. McTaggart. Hugh Savage, of the Cowichan Leader, Duncan, represented the Canadian Weekly Newspaper Association.

Lending valuable co-operation in the proceedings were Lou Turner and the Empress Orchestra, who generously gave their services by kind permission of the American Federation of Musicians; members of City Police Force, the Public Works Department, the janitors of the Parliament Building, and Fletcher Bros. who kindly loaned the piano.

# Former Victoria Journalists Who Died Overseas

HENRY G. SIVERTZ

Henry G. Sivertz, a member of The Times staff prior to his entering upon the study of law, was a young native son of Victoria. He won the Military Medal on the field and two bars.

J. T. HEWITT

James T. Hewitt served as sporting editor of The Colonist and afterwards as the Vancouver Daily Province. He went overseas with the 143rd Battalion, the famous "Bantams," and was killed in action.

## PLACE OF TABLET AND ITS HISTORY

The position selected for the bronze tablet is under the dome of the building, where it must constantly meet the eye of those whose duties take them to the Legislative Halls of the province, or of those whose employment is in one or other of the partner departments. Beneath the tablet hangs an illuminated scroll bearing the names of fifty-six members of the profession who served overseas during the war. The significance of these figures is realized when it is stated that there are not more than 150 active newspapermen in British Columbia.

Surmounting the memorial tablet is the badge of the Institute in color enamel, while beneath the names of those whose sacrifice is commemorated are the immortal words of Pericles: "They gave their bodies to the commonwealth and received, each for his own, praise that will never die."

The names on the tablet are as follows:

LIEUT. FRANK COFFEY

Lieut. Frank M. Coffey was killed in action with the Australian Imperial Force at Gallipoli November 19, 1915. He was for some time on The Victoria Times, and left this paper to become assistant secretary to the Provincial Agricultural Commission. He went to Sydney, N.S.W., where his father is a merchant. His death was a great loss to the paper.

tirely from the editorial staff of the daily, weekly and periodical press of the province. Incorporated under the Society's Act of B. C., its finances are in a very healthy condition, and it is able, through its benevolent fund, to materially assist some of its members who have fallen on evil days during the hard times.

The Institute's dinners, at which many distinguished strangers have been entertained, have come to be regarded as events to be eagerly anticipated. There is an invariable and stringent rule that at these informal functions there are "no reporters present" and leading men in all walks of life have taken kindly to newspapermen with a frankness impossible at public functions. Among the guests of the Institute during the last few months have been such distinguished men as Lord Ullawater, late Speaker of the British House of Commons; Sir John Martin Harvey, the distinguished actor; Bliss Carman, the Canadian poet; J. W. Macdonald, the noted American writer; Sir Auckland Geddes, British Ambassador in Washington; Mr. Wick Steved, editor of the London Times and Sir Philip Gibbs.

As he sat negligently swinging his leg he frequently strained his chin upwards and outwards, rather as if his collar were tight (but it was nearly loose), or as if he were performing an exercise for stretching the muscles of his neck. This was a habit of his.

A silver entree dish was placed before Mabel, another before Sabre. Now Jinks remarked his mistress's cover and Mr. Boom Bagshaw pushed aside a flower vase to obtain a view.

"Don't eat salmon," he remarked. The vase was now between himself and Sabre. He again moved it, "Or cutlets."

LIEUT. GORMAN

Lieut. Joseph Gorman was one of Victoria's popular younger set. He was sporting editor of The Victoria Daily Times and left Victoria in 1915 to enter the air service. He obtained part of his training in Texas. After completing his training in England he was engaged first on seaplane patrol work and afterwards went to the Mediterranean, where he had his headquarters at Malta, and was employed in scouting for submarines.

Subsequently he joined the British aerial forces in Italy, where he lost his life in a crash. He was buried with signal honors in clastic Padua, special tributes being paid to his gallantry and skill by the heads of the Italian Air Service and the Italian forces in that sector.

A gong boomed enormously through the house. It had been one of her father's wedding presents to Mabel and it always reminded Sabre of the Dean's, her father's voice. The gong's voice boomed, swelling into a loud boom when he was in mid-speech and reverberating into a distant boom as his periods terminated. It was the warning gong for lunch. In ten minutes, in the perfectly ordered house, a different gong, a set of chimes, would announce that lunch was ready. The reverberations had scarcely ceased when Low Jinks, although she had caused the reverberations, appeared in his room with a brass can of hot water.

"Mr. Boom Bagshaw has not arrived yet, sir," said Low Jinks; "but the mistress thought we wouldn't wait any longer."

She dispatched the ever from the basin and substituted the brass can. She covered the can with a white towel, uncovered the soap dish, and disappeared, closing the door as softly as if it and the doorpost were padded with velvet. Perfect establishment!

Sabre washed his hand and went down. Mabel was in the morning room, seated at the centre table where the flowers had been and where now was her embroidery basket. She was embroidering an art which, in common with all the domestic arts, she performed to perfection.

"Bagshaw's late?" said Sabre. Mabel glanced at the clock. Her gesture above her busy needle was pretty.

"Well, he wasn't absolutely sure about coming. I thought we wouldn't wait. Ah, there he is."

Sabre thought, "Good. That business is over. Nothing in it. Only Mabel's war."

Sounds in the hall. "In the morning room," came Low Jink's voice. "Lunch . . . wash your hands, sir."

There was only one person in all England who, arriving at Crawshaw, would not have been gently but firmly folded by the machine-like order of its perfect administration and been led in and introduced with rites proper to the occasion. But one person was the Reverend Cyril Boom Bagshaw, and he now strode across the threshold and into the room.

He strolled in. He wore a well-styled grey flannel, brown brogue shoes and a soft collar with a black tie tied in a sailor's knot. He disliked clerical dress and he rarely wore it. His face was dark. His good-looking face bore habitually a rather sulky expression as though he were a little bored or dissatisfied. You never saw him thought, to look at him, that he was a clergyman, or, as he would have said, a priest, and in not thinking that you would have him as a clergyman that pleased him most. This was not because Mr. Boom Bagshaw lacked earnestness in his calling, for he was enormously sincere. He was a clergyman, and he despised the conventional habits and manners and appearance of the clergy and, in any case, intensely disliked being called a clergyman. The same reasons he wore a monocle; not because the vision of his right eye was defective but because no clergyman by the priesthood and that it was the Reverend Cyril Boom Bagshaw did it.

He strolled negligently into the morning room, his hands in his trouser pockets, the skirt of his jacket rumped on his wrists. He gave the impression of having been strolling about the house all day and of now strolling in here for want of a better room to stroll into. He nodded negligently to Sabre, "Hullo, Sabre," and moved negligently to Mabel and seated himself negligently on the edge of the table, still with his hands in his pockets. He swung one leg negligently and negligently re-buried. "Good morning, Mr. Sabre. Embroidery?"

Sabre had the immediate and convenient feeling that the negligent and negligent gentleman was not in his house but that he was permitted to be in the house of the negligent and negligent gentleman. And this was the feeling that the negligent gentleman invariably gave to his hosts; whoever they might be. Indeed it was said by a profane person (who fortunately does not enter this history) that the Delty entered Mr. Boom Bagshaw's church on the same terms, and accepted.

As he sat negligently swinging his leg he frequently strained his chin upwards and outwards, rather as if his collar were tight (but it was nearly loose), or as if he were performing an exercise for stretching the muscles of his neck. This was a habit of his.

A silver entree dish was placed before Mabel, another before Sabre. Now Jinks remarked his mistress's cover and Mr. Boom Bagshaw pushed aside a flower vase to obtain a view.

"Don't eat salmon," he remarked. The vase was now between himself and Sabre. He again moved it, "Or cutlets."

Staff and Friends Hold Outing at Beach House

Saturday morning at eleven o'clock Diggon's staff ceased labor, locked up the establishment and went to the friends to the number of sixty, proceeded by trolley and automobiles to the Beach House, Sidney, where the firm's annual picnic was held.

Resplendent in Summer costumes and with the sun warmly shining, it was a happy throng that chanted most of the popular choruses of the day on route.

got this salmon in specially from Tidborough."

"I'll have some of that ham," said Mr. Boom Bagshaw; and he arose sulkily and strolled to the sideboard where he rather sulkily cut from a ham in thick wedges. The house was clearly his house.

He addressed himself to Mabel. "Now in a very few weeks you'll no longer have to get things from Tidborough, Mrs. Sabre—salmon or anything else. The shops in Market Square are going the minute they're complete. I've got a couple of fish-mongers only yesterday."

He spoke as if he had shot a brace of fishmongers and slung them over his shoulder and flung them into Market Square. Market Square was that portion of the Garden Home designed for the shopping centre.

"Two," said Mabel. "Two. I encourage competition. No one is going to sleep in the Garden Home."

"What will all the bedrooms be used for then?" Sabre inquired. Mr. Boom Bagshaw, who was eating his ham with a fork only, holding it at its extremity in the tips of his fingers, occasionally flipping a piece of ham into his mouth and swallowing it without visible mastication, flipped in another morsel and with his right hand moved three more vases which stood between himself and Sabre. He moved each deliberately and set it down with a slight thump, rather as if it were a chessman.

(To be continued)

"Do you think your father would be willing to listen to my plea this evening?" he asked. "Good heavens!" she replied; "don't plead. Threaten. Pa's more used to it."

MOOSE WILL HOLD MONSTER MEETING

Two Representatives Will Attend Annual Convention

The 24th Annual International Convention of the Loyal Order of Moose will take place this year at Moosehead, Illinois, beginning August 20. From present indications this convention promises to be the greatest ever held under the auspices of the Loyal Order of Moose.

Point of view and the splendor of the events to be staged. Moose from all parts of the world will gather together for the affair, the bulk of whom will be from the United States and Canada, but representatives will be on hand from South Africa, Hawaii, Alaska and Panama. Brother Warren G. Harding, President of the United States, will be present, and take part in several of the many ceremonies. Prizes to the extent of many thousands of dollars will be given for band contests, drill team competitions, best exemplification of the ritual and other things, and in consequence some of the larger lodges will send delegates and members by the train.

Victoria Lodge, No. 1350, will have two of their number present in the persons of Brother Dictator C. E. Copeland and Brother Secretary J. F. Pearce, who will leave the East on Wednesday week via Seattle.

Moosehead, which is known as the "city of childhood," is situated on the Fox River, and a short distance from Chicago, and houses at the moment about eleven hundred and fifty dependant children of departed Moose. At the convention, many new buildings which have been donated by various lodges will be dedicated as well as a huge Campanile 75 feet high, erected by voluntary subscription in honor of Jas. J. Davis, director general of the Loyal Order of Moose, founder of Moosehead, and who is also Secretary of Labor in the United States Cabinet. A special feature of the convention will be the graduation of fourteen children, which will take place before the vast audience, and it is pleasing to note that one of the leaders came to Moosehead from Montreal, Canada. The local representatives expect the return in about two weeks, and should have many interesting topics to put before their home lodge upon their return.

LARGE CROWD IS EXPECTED AT PICNIC

(Times Correspondence) Ladiesmith—The first picnic of the employees of the Canadian Collieries (Dunsmuir) Ltd., of the lower end of the island, will be held on Saturday, August 12. The picnic this year will be held on the Shell Beach, and scows and boats will leave the Government wharf beginning at 10 o'clock in the morning. A fine programme of field and aquatic sports has been arranged, included in the latter being several Indian canoe races, and a number of other events. The picnic is a very popular one, and with such a strong programme the big function should easily surpass previous records.

G. F. Evans, of the Alaska Lightering and Commercial Co., has arrived in town to start sacking coal for the Island. He is expected to stay here for a few days.

J. G. Cargill, local Collector of Customs, is absent on a three weeks' vacation, during which time he will visit Portland.

selecting the Beach House, was demonstrated by the chorus of approval from the whole party on arrival.

There one saw an acre or two of grassy level land for the sports, etc., and a splendid beach for bathing as well as hosts had decided to win the championship cup which had been presented for the event. Unfortunately an error on the part of the star player of the office force brought defeat to that aggregation and the cup was therefore presented to the mechanical department to hold for one year, the score being 7 to 6.

Everybody laughed when Jack Trace gave an exposition of golf and missed the ball six times.

**QUEEN CHARLOTTE CRUISE.**

The Grand Trunk Pacific steamship operating the S.S. Prince John, a comfortable and seaworthy ship of over 900 tons burden, 190 feet long and with accommodation for 54 first class passengers, commences a special cruise, 2,000 miles by sea, through the Thousand Islands of the Pacific Coast, from Vancouver by way of the Queen Charlotte Islands to Prince Rupert, with calls at all intermediate island ports.

Possibly the Queen Charlotte Islands is the least known territory on the North American Continent located within the pale of civilization. Here are to be seen the descendants of the fierce Haida Indians, at one time the most powerful tribe and the most relentless raiders on the Pacific Coast. Their ancient totems still stand, and many other interesting relics remain for the sightseer.

Sufficient time is allowed to enable tourists to browse around and see things, in addition to which the natural scenery viewed from the ship's deck is of unsurpassed beauty. You are away eleven days on this cruise, and the cost is only sixty dollars. Reservations may be made at the company's office, 911 Government Street.

**News from the Ocean Lanes****PILOTS DECIDE TO AMALGAMATE**

**Rival Organizations on B. C. Coast Join Forces Under New System**

The Canadian Merchant Service Guild announces an amalgamation between the B. C. Pilotage Association and the Vancouver Pilots, Ltd., which bodies have been competing for the pilotage business of the British Columbia coast for the past six months, the latter company having commenced business in February of this year. It has been decided that the new system shall be under the sole management and direction of a committee of seven, composed of one appointee from each of the Victoria, Vancouver and Nanaimo Boards of Trade (this appointee to be an owner, manager or agent of an ocean steamship line) three pilots, of which one shall be from the Vancouver Pilots, Ltd., and two from the B. C. Pilotage Association, the seventh member of the Board to be the president of the Canadian Merchant Service Guild, providing that he is not a pilot, in which event the vice-president will act. The Board will be known as the Pilotage Management Board, and will select a chairman from amongst themselves.

The shipping bureau, of the Vancouver Board of Trade, has concurred in this arrangement, subject to ratification by its council. The Nanaimo Board of Trade will consider the matter at a special meeting to be held on Tuesday, and the shipping representatives of the Victoria Chamber of Commerce, also have concurred in the arrangement.

Subject to a favorable vote from the Guild members, it is expected that the formal amalgamation will take place about October 1.

The system of management as outlined is somewhat similar to that existing at the larger seaports of Great Britain.

The Empress of Canada has 500 passengers and 4,000 tons of freight.

**DOCKERS' STRIKE HAS BEEN AVERTED**

**Terms Reached at Conference Between Employers and Workers**

London, Aug. 7.—(Canadian Press Cable)—The prospect of a dockers' strike has been averted as the result of the decision of the National Transport Workers, in conference yesterday, to assent to the terms reached with employers in regard to the latter's demand for a reduction of wages of two shillings a day.

The final terms have not yet been published but it is understood that the two shilling reduction will be made in instalments extending over several months. The outlook is promising for the stabilization of wages over a long period.

for the return to the surface, which would result in curving his body practically like the lower half of a wheel. The crowd of spectators at first did not realize what had happened and were cheering the diver while he was struggling in the water. He was paralyzed from the wrists down and working hard with his hands to keep above water, when Audrey Griffin jumped in and pulled him to the side. He was immediately placed on an improvised stretcher and taken to the club house, where Dr. Bryant was called. An ambulance was ordered to take him to St. Joseph's Hospital.

**Called Calder Down**

"Buck" Calder, his clubmate and partner in diving high diving exhibitions, was on the platform from which Muir had dived, and from the height was under the impression that Muir was only suffering from cramp. He was prepared to make the dive and come in the crowd, not realizing the seriousness of the accident, that had just occurred, called upon him to do so. An insistent cry, however, was put up by the club superintendent, spectators and officials for Calder to come down the steps, which he did, an outburst of applause which greeted him showing the relief felt as he did so.

Muir and his clubmate, Calder, have been known for several years for their high diving stunts, and before high diving towers were in use in the city used frequently to dive from the George bridge.

**Bore Sufferings Bravely**

Clubmates and swimmers generally were deeply moved at the accident and touched by the way he bore his sufferings. "Good old Billy; give him a cheer," called someone as the ambulance bore him away, and in spite of his sufferings the courageous young athlete summoned a smile and waved a feeble acknowledgement.

**V.I.A. Feels Responsible**

"The Victoria and Island Athletic Association feels full responsibility for Muir," said a statement given out today by W. H. Davies, superintendent of the Association. "The Association had taken complete charge of the case, and will spare no expense or trouble to assist Muir's recovery. If necessary, we shall bring special-

ists from any distance to treat him. As he was injured in an amateur competition, we will do anything in our power for him.

Investigations made after Muir's injury lead us to believe that his last high dive was not alone responsible for his hurt. After competing in ordinary diving stunts and high dives during the afternoon he complained to his companions of a pain in his chest and back. It is thought, therefore, that he had dislocated his back early in the day, and that the high dive completed his injury only.

Jack Cody, coach of the Multnomah Athletic Club, of Portland, and one of the most renowned athletic coaches in the world, and Don Vickers, of the Crystal Pool, Seattle, both of whom have seen many divers injured, believe this to be the case.

Courtesy is the quality that keeps a woman smiling when a departing guest stands at the open screen and lets flies in.

## NEWS IN BRIEF

**Canadian Scottish.**—A meeting of the sergeants' mess of the 16th Canadian Scottish will be held at the Armouries at 8 o'clock to-morrow night.

**Freight Car Entered.**—Five boxes of apricots were taken from a freight car on the E. & N. tracks over the week-end and it was reported to the police to-day. The thieves, it is thought, were searching for liquor.

**Executive Will Meet.**—A meeting of the Executive Council of the Army and Navy Veterans will meet at the Hamley Building to-night at 8.15 o'clock, while the General Unit will meet on Thursday night at 8 o'clock.

**Will Address Address.**—A meeting of the Kiwanis Club, to be held at the Dominion Hotel at 12.15 p.m. to-morrow, Alfred Carmichael will speak. Handley Wells, the well-known organist, will contribute a number of vocal numbers.

**Victoria Photographers.**—The monthly meeting of the Victoria Photographers' Society will be held in the Y.M.C.A. at 8 o'clock to-morrow evening. There will be criticism of old prints, and the subject for exhibit will be domestic pets.

**To Meet To-morrow.**—A meeting of ex-members of 67th Battalion Western Scouts will be held in the club rooms of the Canadian Legion, 1408 Douglas Street, on Tuesday evening at 8 o'clock. Matters in connection with the visit of the Governor-General, Baron Byng, will be discussed.

**Executive Will Meet.**—A meeting of the executive of the Victoria branch of the Great War Veterans' Association will meet at headquarters, Bastion Street, on Tuesday night at 7 o'clock. All members are requested to attend this meeting, as considerable agenda is to be taken up.

**Asks For Conference.**—John Dean, on behalf of the contributors to the Short Inquiry Fund, has asked for an early conference with the City Council and Mayor Marchant will lay his request before the aldermen to-night. It is probable that next Friday will be selected.

**Victoria Rabbit Breeders.**—The Victoria and District Rabbit Breeders will hold their regular monthly meeting in the Y. M. C. A. on Tuesday evening, August 8, at 8 o'clock. As entries for the Fall Fair will close before the next meeting all members are requested to be present and help complete arrangements.

**Cymrodorian Society.**—The monthly meeting of the Cymrodorian Society will be held Wednesday evening, August 9, at 8 o'clock, Broad Street. There will be competitions in solos, duets and recitations for children, for which prizes will be awarded. Lady members are asked to provide cakes. All Welsh visitors and residents are invited to attend.

**New Highway Opened.**—Shebourne Street is now open to traffic from Haultain Street to Hillside Avenue, completing a new, easy, gradient highway to Saanich. Contributory to the new highway, Fernwood Road from Gladstone Avenue to Haultain Street has been resurfaced, making a first class highway into the city for traffic from Gordon Head and other points.

**Victoria Boy Scouts.**—A special meeting of the officers of the Victoria Boy Scouts Association will be held at 8 o'clock on Wednesday, August 9, at room 311, B. C. Permanent Loan Building. Arrangements in connection with the forthcoming visit of His Excellency the Governor-General will be discussed. All officers and those in charge of troops or packs are earnestly requested to make every effort to attend.

**Victorians Selected.**—At the annual meeting of the B. C. Optometric Association last week the following officers were elected: W. Lawrence Smith, Vancouver, president; Leonard Morris, Vancouver, secretary; treasurer: F. W. Nolte, Victoria, first vice-president; J. W. S. Morrison, Nanaimo, second vice-president; J. H. Le Page, Victoria, third vice-president; H. S. Pickering, Vancouver, third vice-president; executive committee: Neil C. Gilchrist, Vancouver; H. A. Liphardt, Vancouver; W. C. Rowland, Victoria; George T. Gilpin, Vancouver; M. S. Hastings, Vancouver; A. G. Hirschberg, Vancouver; and J. A. MacKenzie, Vancouver.

**Had Fight With Dog.**—In a report made to the police to-day a ratepayer complains that he was attacked by an Alredale terrier while passing premises on Yates Street. The resident requests the police to find the owner of the dog and take action, stating he had a stiff fight in getting clear of the animal.

**Will Meet Ex-Service Men.**—His Excellency the Governor-General, will be pleased to meet all ex-service men on the evening of August 23, at Government House irrespective of being a member of any organization. Colonel C. W. Peck, V. C., D. S. O., has very kindly accepted the invitation of the service organizations to introduce those who attend to His Excellency. The time appointed for the reception is 5.45 p.m. on Wednesday.

**No Delegates Yet Chosen.**—Mayor Marchant this morning stated that he had as yet made no selection of delegates to the Kamloops Convention of the Union of B. C. Municipalities. At the last session of the Council selection was left to the Mayor by the aldermen. Should Mayor Marchant attend the convention himself, one of the points which he will advance will be a proposal that no change of land title shall be required without the filing of a municipal certificate that all taxes to date have been paid.

**Short Report Ready.**—Mayor Marchant this morning stated that the Short report on Victoria's civic affairs is now ready for distribution. The questionnaire postcard and City Comptroller Raymur's disclaimer letter are also completed. Mayor Marchant remarked that if distribution was effected by requiring interested ratepayers to call at the city hall and obtain their copies it would be exactly in accord with his ideas. He maintained that public interest had been greatly over-stated, and such a plan would show that not over five hundred ratepayers had any real desire to peruse the report in full.

Sack of Varnish Tins Has Interesting History in Police Court

The contents of a sack occasioned some mystery in the city police court to-day, it being stated to have been found on the Post Office steps; while the contents were variously given as coal, whisky and finally five one-gallon cans of varnish.

V. E. Rosa, general manager of the firm of that name at 321 Wharf Street, settled the matter by stating that five cans of varnish, valued at \$40, which he identified, had been stolen from his premises over the week-end.

John Clancy and William Martin, charged with being in possession of the varnish knowing it to have been stolen, pleaded not guilty and were remanded until to-morrow for judgment. Clancy and Martin both averred that the former found the sack at the Post Office steps. Both pleaded being drunk and stated they did not have a very clear remembrance of all the details.

In describing the loss, Mr. Rosa stated a window had been broken at the back of his premises, and that two cans were taken from his office, and three from the warehouse nearby. Constable Forster told the court of meeting both accused on Humboldt Street, and being suspicious took them to the station under arrest.

As the result of a serious motor accident yesterday in which the car he was driving left the road on Montreal Street, jumped the curb and crashed through the corner of a wooden shed, George Paine was charged with being intoxicated while in charge of a car. Paine pleaded not guilty and was remanded until Tuesday for hearing.

A Macdonald, charged with being drunk in public, a second offence under this section of the Government liquor act, was fined \$200 with the option of two months in jail.

Wong Hing, charged with others, charged with being inmates of a common gaming house, to wit the Sai Lee Club, Pan Tan Alley, were fined \$25 each. Wong Hing, the only one who pleaded not guilty, was assessed costs increased to \$250, while the remainder of those arrested were ordered to pay \$1 each in costs.

Chien Fry, Sergeant Bolton and a posse made the raid on Saturday afternoon. Some thirty Chinese escaped by a rope from a rear window, stated Chief Fry. Wong Hing, who pleaded lawful defence, was fortunate in that he was seen at a front window in the act of trying to drop a sack of Pan Tan equipment to the street.

Joseph Hoar, charged with obtaining \$875 by worthless cheque, was given three months hard labor. The accused pleaded guilty, but had a previous record of theft and forgery.

**GYRO CLUB TO PLAY BASEBALL**

Team Will Be Formed; Nanaimo Installation

A Gyro baseball team is under contemplation. It was announced at today's luncheon at the Hudson's Bay store. A meeting will be held this evening to discuss the plan.

Nearly every member present at the luncheon signified his intention of attending the installation ceremonies at Nanaimo on Saturday, when a new Gyro Club will be started off with a large membership and great enthusiasm.

After the installation of the Nanaimo Club officers a banquet will be held at 7.30 o'clock. Most of the members will motor to Nanaimo, leaving here Saturday noon, and some will stay over at Nanaimo and motor back on Sunday.

There were no speeches at today's luncheon, and the time was spent in hearing reports of committees and in songs and community singing. The Gyro Orchestra gave an excellent programme.

Manager L. D. McLean Entertained Staff of New Method Plant at Deep Bay

Deep Bay was the scene of a merry picnic party on Saturday, when the employees of the New Method Laundry and their friends held their third annual outing. The day's journey was made in trolley-ho and private cars. The arrival at Deep Bay was made shortly after twelve o'clock, and the first item on the day's programme was lunch, every one doing justice to the bountiful supply of good things. A strenuous game of rounders and other games was followed by a "dip" in the bay, very few remaining on shore.

In the afternoon an excellent list of events was put off the Chaleur sports ground, welcome ice cream supplied by Mr. L. D. McLean serving to refresh the entrants and spectators. After the presentation of the prizes by Mr. McLean he entertained the gathering with an amusing and clever exhibition of sleight-of-hand and card tricks, the hearty vote of thanks was passed to Mr. McLean for the most successful outing, the singing of "For He's a Jolly Good Fellow" preceding the community sing which was continued all the way home to North Park Street.

The list of the sports and the winners was as follows: Mixed—1, Nellie Hook and G. Dyson; 2, Nellie Lightfoot and W. J. Sweetnam. Peanut race, ladies—1, Nora Hudson; 2, Ethel Newburn. Thread a needle, mixed—1, Ethel

## Victoria Swimmers Beat Combined U. S. Forces

V. I. A. A. Carries Off Cup For Highest Aggregate At P. N. A. Gala; Seven Records Are Smashed In Greatest Water Meet In City's History; Audrey Griffin Captures Canadian Championship and Two Pacific Northwest Titles With Wonderful Speed.

Here's how the clubs finished in the fight for the Aggregate Cup at the Pacific Northwest gala:

	Points.
V. I. A. A.	86
Seattle Crystal Pool	69
Portland, Multnomah Club	37
Victoria Polo Team	15
Vancouver	14
Victoria Y. M. C. A.	5
Victoria Amateur Swimming Club	4
Elks Swimming Club	3

With a margin of several points to spare, Victoria swimmers triumphed over the two big United States cities of Seattle and Portland at the Pacific Northwest gala staged at the V. I. A. A. clubhouse at the Gorge Friday and Saturday, with even greater success than has attended the previous P. N. A. galas held in Victoria. There was one feature, however, which marred the proceedings, the sad accident to Billy Muir, the B. C. diving champion, referred to in another column.

### Won Easily.

The "V. I. A." won the meet handily with 86 points tucked away. Seattle next, nearly twenty points behind, and Portland third, with roughly half Seattle's total. Victoria polo team, Vancouver, Victoria Y. M. C. A., Victoria Amateur Swimming Club and Elks finished next in the order named, in the keen battle for the Aggregate Cup. The Island Club members were delighted at their success in retaining the trophy.

### Seven New Records.

Six P. N. A. and one Canadian record went by the board, Audrey Griffin setting three of the new marks. The clever Victoria girl made the Canadian record for fifty yards free style ladies in the race of the day. The time was 29.4 seconds, and she won by a margin of half a second. She also won the 100 yards race, and the 200 yards race, and the 400 yards race, and the 800 yards race, and the 1600 yards race, and the 3200 yards race, and the 6400 yards race, and the 12800 yards
